

ARE YOU CONSIDERING A SHORT-TERM MISSION EXPERIENCE IN 2012?

Short-term mission experiences of 1-2 weeks provide an opportunity to grow your faith through hands-on mission work and learning from our missionaries and fellow Christians in locations for ministry away from home. Opportunities you might want to consider in 2012 are:

- **MICHIGAN SERVANTS FOR CHRIST 2012**, our Region mission project in Haiti. 13 team members from six of our Region churches participated in the week long 2011 project in Cap Haitian. Although dates and places for 2012 are yet to be determined, if you would like more information as it becomes available, contact Lynn Punnett, Project Coordinator (lynnepunnett@yahoo.com) or Ron Cary (rcary@abc-mi.org).
- **CHRIST COMMUNITY BAPTIST CHURCH** in Flint provides opportunities for inner city ministry close to home. Projects can be designed to fit the needs and skills of your team members. This is a particularly good project for a youth group. Contact Pastor Malcolm Brown for more information (pastorbrown@gmail.com).
- **NEW VISION RENEWABLE ENERGY** of Philippi, West Virginia, offers 4-6 day mission work experiences during the summer months especially designed for fellow believers who are “thinking outside the box of traditional missions, ministry and outreach.” Learn more about the opportunities New Vision can provide for your church by going to their website (www.NewVisionRenewableEnergy.org).
