

ABC-MI Mission Trips

ABC-MI is part of a broader family of churches that believes that we don't parachute in and direct; we park and discern. Your mission dollars given through the Region Offering have enabled people from several churches throughout the entire state of Michigan to participate in a cross-cultural mission trip experience. Through active partnerships in Haiti and Puerto Rico, we are practicing an incarnational model of ministry that believes God is already at work in a place. Our invitation is to listen to how those already there are sensing the presence of God, and we offer to serve them as they serve their community.

Let's face it; mission trips are expensive. Yet, with your mission dollars given through the Region Offering, we can bring people together across our state to participate in a subsidized mission trip experience that enables people to see the Reign of God in places outside their neighborhood. Over the years, we have helped build buildings, expanded the scope of a neighborhood school, provided much-needed equipment and disaster relief in times of great despair.

As you give to the Region Offering this year, your mission dollars will stretch far outside the borders of this great state and will impact places and people you may never meet.
